

EMMANUEL F. MORALES JR.

SENIOR FULL STACK SOFTWARE ENGINEER

emman.fsdev@gmail.com
Tarlac, Philippines

PROFILE

Senior full-stack software engineer with 9+ years of experience building and scaling web and mobile applications across the JavaScript and TypeScript ecosystem, currently developing and maintaining Officeworks' Australian e-commerce platform. Specializes in TypeScript, React.js, Next.js, React Native, and Node.js microservices, backed by PostgreSQL and NoSQL data stores and hands-on AWS cloud infrastructure and DevOps practice — ECS, EC2, S3, DynamoDB, and Batch provisioned through CloudFormation and Sceptre, with Docker containerization and Jenkins CI/CD pipelines. Comfortable owning a feature end to end, from Figma mockup through production deployment and monitoring.

CORE SKILLS

Frontend	TypeScript, React.js, Next.js, React Native, Expo, Material-UI, Tailwind CSS, Ant Design, ShadCN
Backend	Node.js, Express, Nest.js, Python, FastAPI, REST & GraphQL APIs, Microservices, OAuth2, Algolia
Databases	SQL, PostgreSQL, MongoDB, DynamoDB (NoSQL), Redis, Memcached, Firebase, Supabase
Cloud & DevOps	AWS (ECS, EC2, S3, Batch, Serverless, Events & Messaging), CloudFormation, Sceptre, Docker, Jenkins, Bitbucket, Nginx, CI/CD
Testing	Unit & E2E testing with Jest, Mocha, Selenium
AI & Practices	Claude, OpenAI, Gemini · Agile / Scrum
Tools & Other	Git, Figma, WordPress, Photoshop, Illustrator, XML/YAML

EXPERIENCE

Senior Full Stack Software Engineer

Dec 2023 – Present

Officeworks (via ConnectOS) · Manila (Australia) · Hybrid

- ▶ **E-commerce Platform Development:** Develop and maintain Officeworks' large-scale Australian e-commerce platform, building customer-facing features in TypeScript and React backed by Node.js/Python microservices and PostgreSQL/NoSQL data stores — including the online print workflow that lets customers design custom artwork for in-store pickup.
- ▶ **AWS Infrastructure & Cloud DevOps:** Provisioned and maintained cloud infrastructure across ECS, EC2, S3, DynamoDB, and AWS Batch using Sceptre and CloudFormation templates.
- ▶ **CI/CD & Containerization:** Dockerized applications for consistent, repeatable deployments and automated build pipelines with Jenkins.
- ▶ **Maintenance & Monitoring:** Resolved complex production issues, maintained XML/YAML configurations, and monitored system alerts to guarantee webstore uptime and reliability.

Stack: TypeScript · React · Node.js · Python · AWS · Microservices · PostgreSQL · NoSQL

Full Stack Software Engineer

Sep 2023 – Dec 2023

TwistResources

- ▶ **Feature Development:** Built scalable RESTful APIs to power core business logic and data workflows for TwistReview projects.
- ▶ **Frontend Architecture:** Standardized and maintained the Next.js boilerplate, accelerating initial setup and feature delivery across the team.
- ▶ **UI/UX Implementation:** Converted complex Figma designs into high-performance, responsive web interfaces using Next.js.

- ▶ **Performance Optimization:** Integrated Material-UI (MUI) with Next.js server-side rendering for seamless styling and fast initial load times.

Full Stack Software Engineer

Jan 2022 – Sep 2023

Quantum Technology Inc.

- ▶ **Frontend & Mobile Development:** Converted Figma designs into modular React.js interfaces and built cross-platform mobile applications using React Native and Expo.
- ▶ **Backend & API Architecture:** Engineered robust REST APIs to process front-end queries and support core product features.
- ▶ **Microservices Implementation:** Designed and deployed scalable microservices to improve system modularity, performance, and maintainability.

Full Stack Software Engineer

Jun 2018 – Jan 2022

JNB Software OPC

- ▶ **Frontend & Mobile Development:** Converted Figma designs into modular React.js interfaces and built cross-platform mobile applications using React Native and Expo.
- ▶ **Backend & API Architecture:** Engineered robust REST APIs to process front-end queries and support core product features.
- ▶ **Microservices Implementation:** Designed and deployed scalable microservices to improve system modularity, performance, and maintainability.

Front-End Developer

Sep 2016 – Apr 2018

WEMOAP IT Solutions

- ▶ **WordPress Development:** Built and configured responsive WordPress sites and web applications with attention to layout and performance.
- ▶ **Deployment & Hosting:** Handled site deployments, domain configuration, and server management on HostGator.
- ▶ **Design & Client Collaboration:** Partnered directly with Hong Kong-based client IT teams to produce custom logos, graphic elements, and UI assets in Adobe Photoshop and Illustrator.

EDUCATION

Bachelor of Science in Information Technology

2012 – 2016

Tarlac Agricultural University

STRENGTHS

Teamwork · Communication · Adaptability · Organization
